

Ultrasound Policy:

For the space available, focus and safety of our sonographers and ultrasound equipment, only 2 visitors can be in the ultrasound room with the patient. We prefer that you do not bring children to ultrasound appointments due to the lights being low/off in the room, the fragile equipment, and to prevent distraction of our sonographers. However, if a child comes to the appointment, they count as a visitor and there must be one adult present to care for them.

Unfortunately, if you arrive without a separate adult to supervise a child that is with you, you will be asked to reschedule.
